Packages (suite)

Création et changement de package:

```
> (setf sym 99)
99
> (setf *package* (make-package 'mine
                                 :use '(common-lisp)))
#<The MINE package, ...>
> sym
Error ... The variable SYM is unbound
> common-lisp-user::sym
99
```
